

Dec. 2024

Dear customers

NTT Advanced Technology Corporation
Material and Nanotechnology Business Headquarters
Environmental Business Section

Notice of Renewal of Super Water Repellent Material HIREC®

Here we would like to announce the renewal of our product "Super Hydrophobic paint HIREC" series due to difficulties in procurement of the conventional raw materials. Accordingly, we plan to release the renewed products in order from around spring 2025. We apologize for the inconvenience and thank you for your understanding.

Sincerely,

Notice

• Expected End of Existing Products

End of December 2025

*Depending on the total amount of orders placed in the future, the end of products may be changed.

In particular, the end date of "HIREC 1100" and "HIREC 1450 NF" may be brought forward.

Depending on the sales results/ performances, we may discuss sales volume. Please understand in advance.

• Renewed products

The HIREC-R (tentative name) and HIREC455 (tentative name) will have their product release in the spring of 2025.

Please contact us for details.
