

# List of research papers written by our customers using our X-ray resolution chart XRESO series

## NTT ADVANCED TECHNOLOGY CORPORATION

NTT Atsugi R&D Center, 3-1 Morinosato-Wakamiya, Atsugi-shi, Kanagawa 243-0124, Japan

NTT ADVANCED TECHNOLOGY CORPORATION (NTT-AT) has been providing x-ray resolution charts for more than 20 years. The charts fabricated by using e-beam lithography and precision dry etching processes are used in synchrotron facilities around world for cutting-edge x-ray microscopes and contribute to the advancement of various x-ray sciences. It also used for commercial x-ray microscopy tools for calibration and evaluation. In this document, we present customers' publications from 2019 to 2025 for your references. You can also find our product detail from the link below;
