

The Optical Connector Cleaner Trusted for Generations of Fiber Networks

1

High-Quality

Made with pure and sterile microfibers, CLETOP effectively removes contaminations without scratching the end face of optical fibers.

2

Compact design

Its compact design offers outstanding portability and enhances work efficiency.

3

Environmentally friendly

In consideration of the health of workers and the surrounding environment, there is no need for any cleaning fluids such as IPA, etc.

Lineup

CLETOP

Designed for plug polishing. The dust shutter opens with a single lever action.

CLETOP-S

Designed for plug polishing. Just a light grip opens the dust shutter - enhancing worker efficiency.

CLETOP Stick

Designed for cleaning ferrules inside adapters, covering a wide area of the end face. Also supports Ø2.0 mm optical composite connectors used in broadcasting.
